

ELECTRIC VEHICLES: Charging your EV at Warner Bros. charging stations

If you don't have a ChargePoint account:

We would be happy to send you the ChargePoint brochure, as well as EV instructions and a charging station map. Apply online to ChargePoint.com – go to “sign up.” Once you have a ChargePoint account established, you'll need to connect it to the Warner Bros. account. (see below)

If you have a ChargePoint account, but don't know how to hook up to the Warner Bros. charging stations:

Log in to your ChargePoint account, hit the “Connections” tab - type the password **WB1234**.

Once that's done, Chris Owens will receive notification that your final approval is pending; he will complete the authorization on the ChargePoint site. You will receive an automated notification of approval. **Please note: it will take at least 24 hours for the approval to be processed.**

If you park in an area where cell phone reception is spotty, then you won't be able to tap your cell phone to the EV charger. In that case, utilize the orange ChargePoint card.

Feel free to call the Parking Office, at 818-954-7275, if you have any questions.
